**At ITS Global, we combine our passion for technology and agriculture with the highest standard in customer service, putting our clients at the heart of everything we do, every day we do it.**

Our easy-to-use, industry leading software is designed to help cattle feeders become more efficient, profitable and sustainable with cutting-edge data management and more informed decision making.

## **What Customers Are Saying:**

---

"When we're talking about cutting costs, labour, not having to do hours of paperwork, being able to view instant data, accurate treatment info, I just don't see why a person wouldn't want to use ITS software."

---

**-Andy Boersma-  
Feedlot Manager, TFS Expanse**
